Source	www.education.com
Cost	Free for most of the site, unlimited access is \$4.99 per month, or a lifetime membership for \$149
Intended Use/Skill	Reading, Writing, Math: lessons, skills, reinforcement
Target Age	PreK-12
Summary of Program: Education.com has thousands of resources for both educators and parents. You can search for worksheets, games, songs, and stories by grade level or subject. In addition to reading, writing, and math, they have resources for science, social studies, foreign language, the arts, and holidays/seasons. There is even a bonus section with arts and crafts, coloring, and recipes. There are several guided lesson plans, and teaching tools available including a customized worksheet generator. The lessons are common core aligned.
