

### School Building Times - Student Hours

Beginning on the first day of school, the following schedule shall be followed. The staggered starting and ending times between the junior high/intermediate schools and the elementary schools will segregate the school population into two groups for transportation purposes: K-4 students and 5-8 students. The staggered starts assist in the efficient operation of our transportation department as well.

Bus routes are being developed to conform to these the times and information listed below. Information concerning bus stops and times will be mailed by mid-August.
