Minooka Intermediate School Compact

HOME/SCHOOL COMPACT

Our challenging instructional program encourages ALL students to reach their highest potential. Classroom instruction includes strong reading and writing components, while providing a variety of opportunities for students to become responsible, productive citizens. Learning is student-centered, and instructional strategies focus on the unique needs of adolescents. A school wide emphasis on meaning-making and critical thinking strategies creates an instructional environment that stimulates academic, social, and cultural learning. Staff assists in organizational skills, assuring students are prepared to learn. We commit to a safe, secure campus that facilitates academics. As a community of learners, MIS students, parents/guardians, and staff share responsibility for high academic achievement and are in consensus that:

MINOOKA INTERMEDIATE SCHOOL STAFF

- The staff has high expectations for academic achievement that are clearly communicated to students and parents.
- The staff uses a variety of instructional strategies and multiple forms of assessment to evaluate student progress toward meeting educational goals.
- The staff maintains on-going communication about school programs and events.
- The staff clearly communicates that Minooka Intermediate School is a community of learners.
- The staff focuses on students' needs by creating a positive school/classroom climate that promotes academic, social and cultural learning.
- The staff consistently reinforces school rules, policies, and expectations to facilitate learning for all students.
- The school maintains facilities that are safe and in working order.
- The school has an emergency/safety plan that is communicated to students and parents.
- The school provides specific activities and strategies which enhance self-esteem and promote the development of positive interpersonal relationships.

STUDENTS

- Students demonstrate a clear understanding of school wide expectations for high achievement and accept responsibility for learning.
- Students recognize their potential, set personal goals, and know how to seek help in achieving their goals.
- Students assume responsibility for taking information home to parents.
- Students attend school each day in appropriate academic attire, enter class on time, and are ready to learn.
- Students assume responsibility for bringing all necessary books, materials, and supplies to class each day.
- Students follow school rules, policies and expectations.
- Students assume responsibility for maintaining a safe, clean campus.
- Students clearly understand the school's emergency/safety plan.
- Students use conflict management and decision making skills to resolve problems in a positive manner.
- Students will work collaboratively with peers in all settings to successfully complete tasks.

PARENTS

- Parents actively support high standards of academic achievement for students.
- Parents serve as advocates for their students to help them realize their potential and achieve their educational goals.
- Parents assume responsibility for keeping informed about their students' educational programs and progress.
- Parents ensure that students wear appropriate academic attire and arrive to school on time each day.
- Parents designate a homework plan/structure and provide a place for students to keep books, materials, and supplies at home.
- Parents support school rules, policies, and expectations.
- Parents help students develop pride in their school.
- Parents clearly understand the schools' emergency safety plan.
- Parents provide support for students to develop interpersonal and communication skills that enable them to become responsible, productive citizens.

Your signature below indicates that you have read and agree to put forth a good effort in abiding by this home/school compact.

BYOD in Minooka CCSD #201

Bring Your Own Device

Parents and Students,

The Minooka #201 District has recently recommended a **Bring Your Own Device (BYOD)** guideline for all students in the fifth through eighth grades. This guideline will allow students to bring many of their own technology devices to school for use in our classrooms. We will now be incorporating the use of such items as laptops, iPads, and netbooks with browsing capabilities for **educational purposes only**. Similar to other personally owned items, the district is not liable for the loss, damage, misuse, or theft of personally owned devices brought to school.

This notification is to inform and guide you through this new opportunity. Please note that students are never required to bring in outside technology to school. All students will continue to be able to utilize our school equipment. No student will be left out of the instruction process.

Expectations:

1. Students will only use appropriate technology at teachers' discretion.
2. Students will only use appropriate educational applications on their device (i.e. not games and/or non-school related tasks and functions).
3. Students are not to text message, email, or electronically communicate with others from their personal device, including other students, parents, guardians, friends, and family during the school day.
4. Students are permitted to access only the school's network through personal devices, not private networks. More information will be provided to students for accessing the available network.

Reinforcement:

Students utilizing this opportunity to its fullest capacity within school expectations will find numerous benefits to instruction, resources, completion of assignments and personal organization.

Students not following expectations for use of personal devices will face school disciplinary measures and lose the privilege to utilize personal devices in school for a period of time commensurate with the infraction.

We look forward to the educational opportunities that BYOD will bring to our students and staff and understand that there will be some challenges with full implementation of the guideline along the way. Your suggestions and feedback are always welcome. Thank you for your understanding and reinforcement of the initial procedures and expectations for this initiative.

ACCEPTABLE STUDENT USE OF PERSONALLY OWNED DEVICES

The School Board adopts this guideline in order to maintain a safe and secure environment for students and employees.

A personally owned device acceptable for use in the BYOD program shall include the following required attributes. The device will have a screen size of no less than 7" diagonal, functional wireless (wifi) connectivity, an installation of the Chrome web browser, and an installation of Google Apps for education. Any operating

system (OS) compatible with these requirements is acceptable (Windows, Android, Chrome, iOS, Apple OS, Linux, etc.) Windows based devices will be required to have installed anti-virus software.

Educational purposes include classroom activities, career development, and communication with experts, homework, and limited high quality self-discovery activities. Students are expected to act responsibly and thoughtfully when using technology resources. Students bear the burden of responsibility to inquire with school administrators and/or teachers when they are unsure of the permissibility of a particular use of technology prior to engaging in the use.

Inappropriate communication includes, but is not limited to, the following: obscene, profane, lewd, vulgar, rude, inflammatory, threatening, or disrespectful language or images typed, posted, or spoken by students; information that could cause damage to an individual or the school community or create the danger of disruption of the academic environment; personal attacks, including prejudicial or discriminatory attacks; harassment (persistently acting in a manner that distresses or annoys another person) or stalking of others; knowingly or recklessly posting false or defamatory information about a person or organization; and communication that promotes the destruction of property, including the acquisition or creation of weapons or other destructive devices. If a student is told to stop sending communications, that student must cease the activity immediately.

Examples of an unacceptable device in this policy shall include but is not limited to gaming devices or consoles, laser pointers, modems or routers, and televisions.

Personally owned devices are permitted for use during the school day for educational purposes and/or in approved locations only.

The District shall not be liable for the loss, damage, misuse, theft of any personally owned device brought to School.

The District reserves the right to monitor, inspect, copy, and review a personally owned device or file when administration has a reasonable suspicion that a violation has occurred.

Students may not utilize any technology to harass, threaten, demean, humiliate, intimidate, embarrass, or annoy their classmates or others in their community. This is unacceptable student behavior known as cyber bullying and will not be tolerated. Any cyber bullying that is determined to disrupt the safety and/or well being of the school is subject to disciplinary action.

All fifth through eighth grade students shall review the associated technology guidelines before students utilize any school and/or personally owned devices. The District reserves the right to restrict student use of district owned technologies and personally owned devices on school property or at school-sponsored events.

Students must be aware of appropriateness of communications when using district or personally owned devices. Inappropriate communication is prohibited in any public messages, private messages, and material posted online by students.

The Board expressly prohibits use of personally owned devices in locker rooms, restrooms, and nurses offices.

Students are not permitted to use any electronic device to record audio or video media or take pictures of any student or staff member without their permission. The distribution of any unauthorized media may result in discipline including but not limited to suspension, criminal charges, and expulsion.

Personally owned devices used in school are not permitted to connect to the Internet through a 3G, 4G, or other content service providers. Personally owned devices must access the internet via the District's content filtered wireless network.

What devices are allowed to be brought in?

Ipads, Laptops (Mac or PC), Chromebooks, and any Android Tablet with a 7" screen or larger. Devices being brought in will have an expectation of lasting at least two hours without the need to be plugged in.

What popular devices are not allowed?

Cell phones, ipod-touch and any other device with a smaller than 7" screen.

**PERMISSION FORM
2017-2018**

Any parent who wishes that their child use a personally owned electronic device within the Minooka School District must read and sign this agreement and submit to the classroom teacher.

1. The student takes full responsibility for his or her device and keeps it with himself or herself at all times. The school is not responsible for the security of the device.
2. The student is responsible for the proper care of their personal device, including any costs of repair, replacement or any modifications needed to use the device at school.
3. The school reserves the right to inspect a student's personal device if there is reason to believe that the student has violated Board policies, administrative procedures, school rules or has engaged in other misconduct while using their personal device.
4. Violations of any Board policies, administrative procedures or school rules involving a student's personally owned device may result in the loss of use of the device in school and/or disciplinary action.
5. The student must comply with teachers' request to shut down the computer or close the screen.
6. The student may not use the devices to record, transmit or post photos or video of a person or persons on campus. Nor can any images or video recorded at school be transmitted or posted at any time without the express permission of a teacher.
7. The student should only use their device to access relevant files.
8. The student will use the district's secured wireless network. Use of 3G & 4G wireless connections is not allowed.

DETACH AND RETURN TO HOMEROOM TEACHER. RETAIN THE INFORMATION ABOVE.

Student's name _____ Homeroom Teacher _____

Parent's name _____

I understand and will abide by the above policy and guidelines. I further understand that any violation of the above may result in the loss of network and/or device privileges as well as other disciplinary action.

As a parent I understand that my child will be responsible for abiding by the above policy and guidelines. I have read and discussed them with her/him and they understand the responsibility they have in the use of their personal device.

Dear Parents/Guardians:

RE: Robert Crown Center for Health Education

All of our fifth grade students are scheduled to attend the Linda or Michael Program at the Robert Crown Center for Health Education.

On the day of the trip, the buses will depart Minooka Intermediate School at 8:40 a.m. and will return around 12:30 p.m. **All students will need to bring a sack lunch.** Teachers will notify parents of the trip date a few weeks in advance of the field trip date..

The *Linda Program* is a unique opportunity for a pre-adolescent "girls only" experience talking about puberty. The setting makes girls comfortable to ask questions about sensitive topics as our educators help to prepare them for the onset of puberty. The program recognizes the significance of physical changes and encourages girls to maintain a healthy body image.

IT SUPPORTS STATE GOALS:

- 22.1.3a Identify and describe ways to reduce health risks common to adolescents.
- 22.A.3b Identify how positive health practices and relevant health care can help reduce health risk.
- 22.A.3 Explain how body systems interact with each other.
- 22.B.3 Explain the effects of health-related actions upon body systems.
- 23.C.3 Describe the relationships among physical, mental and social health factors during adolescence.
- 24.A.3c Explain how positive communication helps to build and maintain relationships at school, at home and in the workplace.

The *Michael Program* allows pre-adolescent boys to learn about changes they will experience during puberty. The "boys only" format encourages open discussion about both male and female reproductive anatomy without embarrassment.

Showing respect for others and self-esteem are important topics in preparing boys for puberty.

Physical changes such as lowering of the voice, increased production of sweat and oil, acne, increased percentage of body fat, and the growth of body hair are discussed in depth. Changes that occur in the male reproductive system such as spontaneous erections and wet dreams are also covered. We also discuss proper nutrition, personal hygiene and exercise, as well as positive self-image.

IT SUPPORTS STATE GOALS:

- 22.A.3a Identify and describe ways to reduce health risks common to adolescents.
- 22.A.3b Identify how positive health practices and relevant health care can help reduce health risk.
- 23.A.3 Explain how body systems interact with each other.
- 23.B.3 Explain the effects of health-related actions upon body systems.
- 23.C.3 Describe the relationships among physical, mental and social health factors during adolescence.
- 24.A.3 Explain how positive communication helps to build and maintain relationships at school, at home and in the workplace.
